📍 59/161 Phatra Grand Town, Pathum Thani

PROFILE

Junior Developer with solid experience in building web applications using React.js, Node.js, and Express.js. Highly skilled in integrating Generative AI tools to optimize workflows and development processes. I am ready to use my real-world experience to build good web applications and support the team.

EDUCATION

Phranakhon Rajabhat University | 2022 – 2026

Bachelor of Science in Computer Science

- GPA: 3.08

Pathumwilai School | 2019 – 2021

High School Diploma (Thai-English-Social Studies)

- GPA: 3.21
-

EXPERIENCE

Front-end Developer (Intern) | Dohome Public Company Limited, November 2025 – February 2026

- Developed responsive web pages for "Home Service" campaign, improving user experience across mobile and desktop platforms.
- CSS Management Created a standard CSS file (DH.css) using CSS Variables to keep the brand design consistent and fix layout problems from other frameworks.
- Software Testing (UAT) Tested the company's CMS system before launching. Wrote bug reports (Defect logs) and test scripts to help developers fix problems easily.
- Generative AI & Prompt Engineering: Applied Generative AI tools (Copilot) to efficiently generate over 2,000 product images, significantly reducing project time and company costs.
- SEO & Updates Updated branch location pages, added Google Maps, and improved HTML tags for basic SEO.

IT Consultant (Part-time) | MSI (J.I.B. Computer Group / IT City) 2023 – 2024

- Customer Support Talked with customers to understand what they needed and helped them choose the best computer specs and software.
- Sales Targets Hit the company's sales goals by giving honest and helpful advice to buyers.
- Problem Solving Handled customer questions and solved unexpected problems on the spot.
- Hardware Knowledge Learned a lot about PC parts and software. This gave me a solid background for testing and building web applications later on.
- Soft Skills Improved my communication and negotiation skills while working in a fast-paced environment.

PROJECTS

Online Concert Ticket Booking System (Senior Project) | 2025

- Built a full-stack website for booking concert tickets designed specifically for independent artists and new bands, featuring search and interactive seat selection.
- Developed the dynamic frontend using React.js to ensure a seamless user experience.
- Designed the database and implemented RESTful APIs using Node.js and Express.js to manage booking data efficiently.
- Technologies: HTML, CSS, JavaScript, React.js, Astro, Node.js, Express.js, MySQL.

Smart Trash Bin (IoT Project - CIA'S DAY) | 2025

- Built an automatic trash bin using an Arduino board and motion sensors.
- Added Bluetooth so users can control the bin remotely.

SKILLS

- **Web Development** HTML, CSS, CSS Variables, Responsive Web Design, JavaScript
- **Frameworks & Libraries** React.js, Astro, Node.js, Express.js, Bootstrap
- **Testing & QA** User Acceptance Testing (UAT), Bug Reporting
- **AI Tools** Generative AI, Prompt Engineering, Claude Code
- **Databases & Coding** MySQL, Python, C/C++
- **Tools** Visual Studio Code, Chrome Developer Tools, Figma, Canva, Ubersuggest
- **Soft Skills** Teamwork, Problem Solving, Fast Learner, Easy to adapt
